

PLEASE do not give LPFM priority over FM translator service!
The ONE "safe place" in the media that my family has is K-LOVE
radio, heard on FM 88.7, 89.7, and 98.3 in my area. It offers
family-friendly music and news all the time, while I can hardly
turn on the TV without seeing sex, violence and profanity. That is one reason
we only subscribe to basic cable, and very rarely watch
TV.

My 6-year-old twins can't even watch the World Series without being
exposed to all of the above during commercials!!! I know that many
other families in my area count on this station as well, and its
continuance is most definitely in the public interest. The young
people in our community have plenty of darkness to deal with -
please don't take away this positive, encouraging alternative.
Thank you for reading and considering my comment!
